SUMMARY

I am a web developer with a passion for analytics. I want to develop robust solutions and help users improve their lives using real world data as my tool.

PROJECTS

WoW Analyzer

Aug 2017 - Current

- Took data from the World of Warcraft combat log API and designed modules with suggestions to help users improve their play.
- Uses React and Node on top of vanilla Javascript to do the analysis and display the website.
- Gets over 4 million requests from 100,000 unique visitors per month.

Beer Review Web App

Oct 2017 - Oct 2017

- Worked in a group setting to developed a fully functional review website.
- Users are able to log in and review a large variety of beers. All of their reviews are saved in their profile and they are able to view reviews written by other users.
- Users are also able to add in new beers to review and delete and update their reviews.
- Makes an API call to <http://www.brewerydb.com/> to get data on over 100 breweries and 1000 beers.

Phaser Tower Defense

Sep 2017 - Oct 2017

- Web browser tower defense game.
- Built using Javascript, Node.js, HTML5, and the Phaser.js library

SKILLS
